

IN THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims

1. (Currently Amended) A personal identification and tracking system comprising:

impression means for providing a predetermined image upon an impressionable medium; and

AS
activation means for moving said impression means between a first position, whereby said impression means is in contact with said impressionable medium, and a second position whereby said impression means is out of contact with said impressionable medium;

whereby said impressionable medium is selected from the group consisting of snow, sand ~~or~~ and mud.

2. (Currently Amended) The system of claim 1 whereby said impression means comprises a cylindrical drum which is rotatably connected to said activation means; whereby said ~~impression~~ predetermined image is created as the cylindrical drum rotates across said impressionable medium.

3. (Currently Amended) The system of claim 2 whereby said ~~rotatable~~ cylindrical drum comprises areas of different heights which form said ~~impression~~ predetermined image.

4. (Original) The system of claim 3 whereby said areas of differing heights comprise at least two interlocking blocks, each of which has a predefined character embossed thereon.

AS 5. (Currently Amended) The system of claim 1 further comprising a sled, for supporting ~~the~~ said activation means, thereby permitting ~~and the~~ ~~motivation means, which permits~~ said system to glide across said impressionable medium.

6. (Currently Amended) The system of claim 1 further including a bracket for attaching ~~the~~ said system to a snow ski.

7. (Currently Amended) The system of claim 1 further including a bracket for attaching ~~the~~ said system to a snow board.
